

# Want to create a **new crypto economy** & make money doing it?

→ Become a ReSource Ambassador!

Resource has created the world's first online marketplace where purpose-driven businesses can trade with one another using cryptocurrency. Health and wellness services, supplements, bodywork, organic food and more – we've got it all on our network. But instead of using US dollars to buy these everyday items, you purchase them with ReSource Dollars.

Resource is all about utilizing decentralized money to create the kind of economy we all want to be a part of - one where dollars circulate inside our local communities instead of funneling back to large corporations and anyone can prosper as long as they have something valuable to offer. As an ambassador, you have the opportunity to earn both USD and crypto in exchange for inviting other businesses onto the network that start buying and selling on the site

Learn more about joining ReSource as an ambassador.
